

# E5

Its unusually strong frame conceals a technical tour-de-force that produces powerful sound. The specially designed double woofer guarantees a warm sound that carries over unusually long distances. The curved design ensures that your favourite music will be distributed throughout the entire room.

① This specially designed bracket is multi-functional. You can use it as a base, wall bracket or even as a ceiling bracket. Thanks to the ball and socket joint, you can align it in any direction you like, using each of the three options.

② The gold-plated connection modules for the loudspeaker cables guarantee optimum conduction.

The E5 is a major player. It can fill high-ceilinged rooms with a warm sound that can travel long distances.

COLOURS white / black

## TECHNICAL SPECIFICATIONS

range	<50m <sup>2</sup>
sound quality	warm and detailed
system	2-way
woofer	5" dual paper cone
tweeter	1" titanium dome
bass reflex	yes
magnetic shielded	no
max. power	140W
sensibility	91dB
impedance	8Ω
frequency range	60Hz - 20kHz
dimensions (h x w x d)	355 x 180 x 255mm
weight / piece	4,1kg
housing	ABS plastic sound units
colour	white / black
extra	protection system
	complete with wall bracket
options	100V (=E5T)
