

frame width grille:  
1 mm

## FL501T

This 100 V inwall speaker is flatter and even more invisible than any of its predecessors. The frame has been reduced down to 1 millimetre, the frame thickness more than halved. The grille of the loud-speaker has been noticeably fine-tuned and it feels almost like silk if you stroke it. The frame simply clicks itself into place with adjusting screws, you fit the grille magnetically.

- ① **type kit:** MOKIT RO212
- material:** PVC
- dim. mm:** Ø 215
- colour:** black
