

# RE2040

Intimi is the Finnish word for purity. And purity is precisely the DNA that makes up this new high-end inwall speaker series. With a nearly frameless grill measuring a mere 1 millimetre, and a thickness of just under 5 millimetres, it breaks with all contemporary standards. The titanium driver with neodymium magnet and patented® suspension allows you to point it in any desired direction. The Intimi series purifies the signal from the amplifier via an advanced separation filter and a correction filter. You can build the RE2040 into a ceiling, but also into a wall. Almost imperceptibly flat, you can even paint over it without a problem.

At home or at the office? The RE2040 was developed to be an all-rounder, but no matter what the application, it always provides top performance.

## TECHNICAL SPECIFICATIONS

range	<40m <sup>2</sup>
sound quality	warm and detailed
system	2-way
woofer	4" neodymium
tweeter	1" neodymium titanium dome
max power	100W
sensitivity	84dB
impedance	4-8Ω
frequency range	60Hz - 20kHz
dimensions cut-out (Ø)	195 x 125mm
dimensions (Ø x d)	220 x 150 x 70mm
weight / piece	1,2kg
housing	ABS
colour	white
extra	paintable
