

AS250.2

Unsurpassed value-for-money. An exceptional design in a high-quality cabinet. In combination with the fibreglass woofer in a wooden frame, the special tweeter is absolutely unique. The warm colour is a dead giveaway for the sound: deep basses and high-quality mid-range, enhanced by a strong wave of high tones. Top quality, in every detail: bi-wiring connection, bass reflex, rounded corners... Perfect for every modern interior. The AS250.2 can easily handle 160 Watt, without any distortion.

COLOURS wengé / black / high gloss black

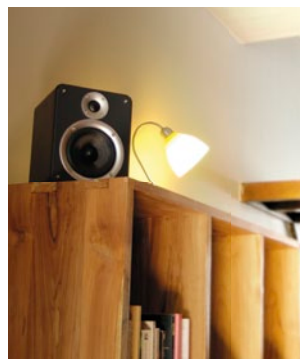

wall bracket
