

## PSW20

The PSW20 is a high-end sound projector made of ABS (plastic). It is a 100 V application that distinguishes itself from other models through its high yield. The PSW20 has been built to fit for industrial spaces and buildings and can serve to play music or as a public address system. This on-wall loudspeaker is delivered as standard with a U-shaped mounting bracket. The PSW20 is also suitable for outdoor use.
