

# ASROCK

ASRock is a speaker in the shape of a rock, blending into the background when used in a garden. Thanks to the special bass reflex it has a powerful sound dispersal (up to 130 watt) and can produce excellent sound quality over a wide area. The ASRock is also available in PA (100 V system)

The ASROCK is actually made to disappear, between high grass, rocks, flowers and plants. You may not see it, but you'll hear it just the same.

COLOURS grey / brown

## TECHNICAL SPECIFICATIONS

range	<50m <sup>2</sup>
sound quality	warm
system	2-way coaxial
woofer	6.5" polypropylene carbon
tweeter	0,5" PEI dome
bass reflex	yes
magnetic shielded	no
max. power	130W
sensibility	91dB
impedance	8Ω
frequency range	50Hz - 20kHz
dimensions (h x w x d)	320 x 230 x 270mm
weight / piece	5kg
housing	ABS
colour	grey / brown
extra	frost-free waterproof
